OBJECTIVE

Aspiring Data Analyst with hands-on experience in SQL, Excel, Python, and data visualization. Skilled in analyzing datasets, creating dashboards, and extracting actionable insights. Seeking an entry-level Data Analyst opportunity to apply analytical and problem-solving skills in a business environment.

EDUCATIONAL QUALIFICATION

B.E. Computer Science and Engineering — Gnanamani College of Technology, Anna University | 2026 | 75%

H.S.C — G. B. Hr. Sec. School | 2022 | 68%

S.S.L.C — G. B. Hr. Sec. School | 2020 | 77%

TECHNICAL SKILLS

Programming languages: Python, SQL, MySQL

Data Analysis: Microsoft Excel, Power BI, Power Query, DAX

Visualization: Excel Dashboards, Power BI Dashboards, Matplotlib

Tools: VS Code, GitHub, MySQL Workbench, Jupyter Notebook

INTERNSHIP

Data Science & AI Internship Training — Besant Technologies, Electronic City

- Gained practical exposure to Python, SQL, data analysis, and data visualization.
- Worked on data cleaning, exploratory data analysis, and analytical tasks using real-world datasets.
- Developed analytical thinking, problem-solving, and technical skills through hands-on projects.

PROJECTS

Sales Analysis Dashboard | SQL, Python, Power BI

- Analyzed retail sales data using SQL and Python to identify sales and customer trends.
- Used SQL queries, aggregate functions, JOINs, subqueries, and window functions to derive business insights.
- Built an interactive Power BI dashboard to analyze sales, profit, products, customers, and regional performance.

Banking Customer Loan Analytics | SQL, Power BI

- Analyzed banking customer and loan data to understand customer profiles, loan applications, loan amounts, and repayment-related patterns.
- Used SQL queries, aggregations, filtering, grouping, and analytical techniques to extract meaningful insights from customer and loan data.
- Identified key trends and patterns to support data-driven banking and loan-related decision-making.

Real-Time E-Commerce Sales & Customer Analytics | Python, MYSQL, Power BI, DAX, Excel

- Analyzed e-commerce sales, customer, product, and order data using **Python and Pandas**.
- Used **MySQL** for data analysis with joins, aggregations, CTEs, and window functions.
- Built an interactive **Power BI dashboard** with DAX KPIs, sales trends, customer insights, and product performance.

CERTIFICATIONS

- Python for Data Science — NPTEL
- C++, Python, Java Course — Cybernaut
- Full Stack Development Course — Green CadTech
- Data Science & AI Internship Training
